

# PRINT SERVER

PRINT SERVER MIGRATION, WINDOWS  
2008 R2 TO WINDOWS 2019

PREPARED BY

**ERICK BREVIGHIERI M. DO NASCIMENTO**

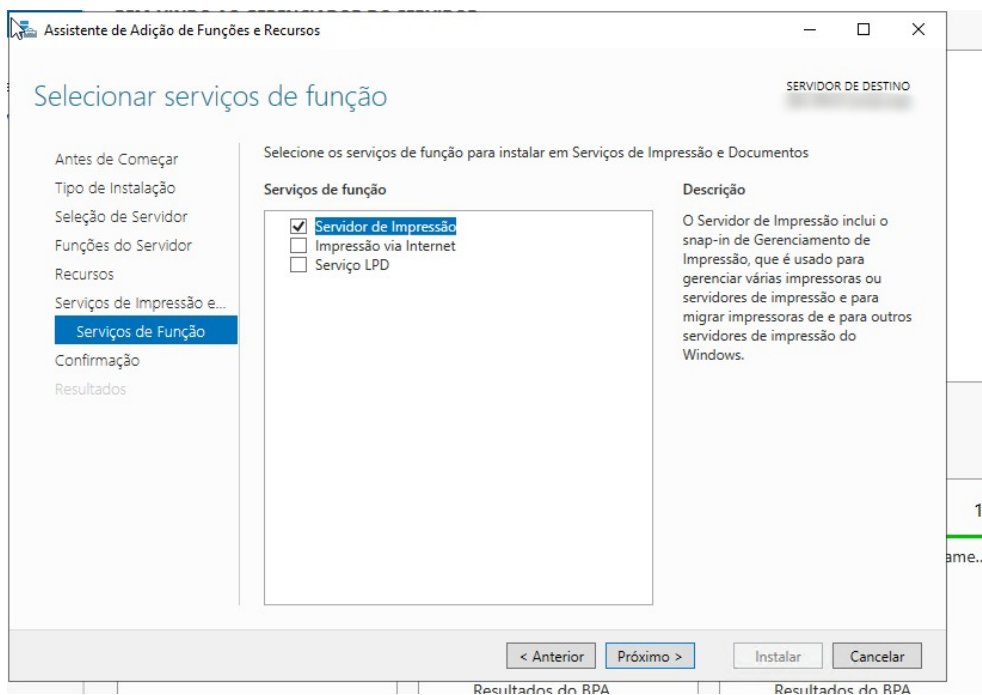

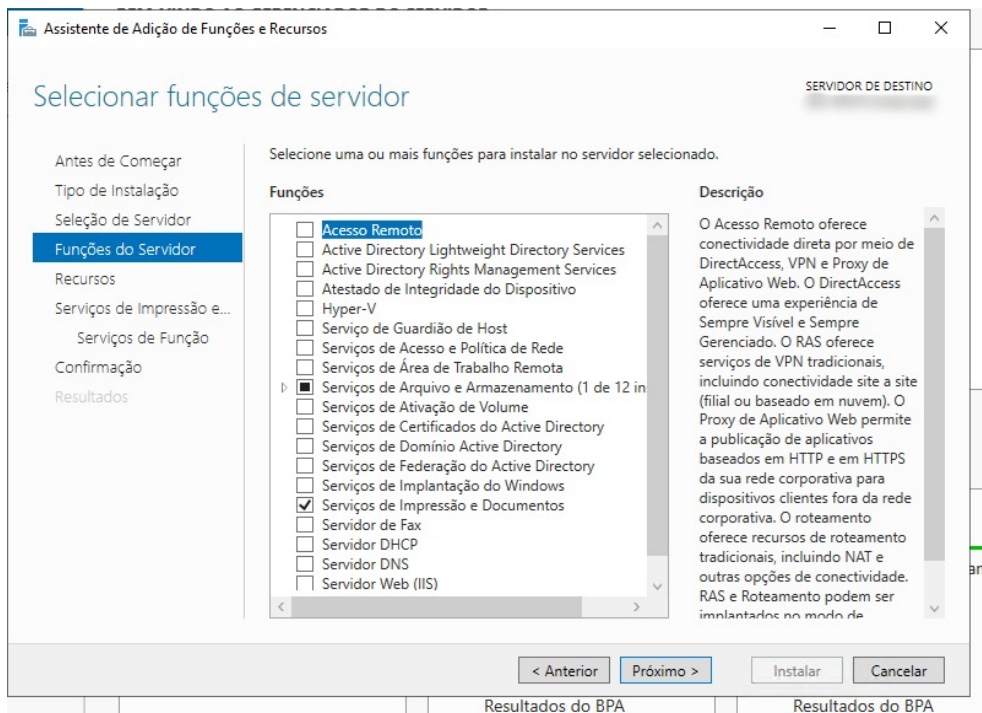

## INSTALLATION PLACE

- ORIGIN SERVER: WINDOWS 2008 R2
- DESTINATION SERVER: WINDOWS SERVER 2019
- ADDITIONAL PROGRAMS: PAPER CUT PRINT LOGGER

## DOCUMENTATION AND PROCEDURES

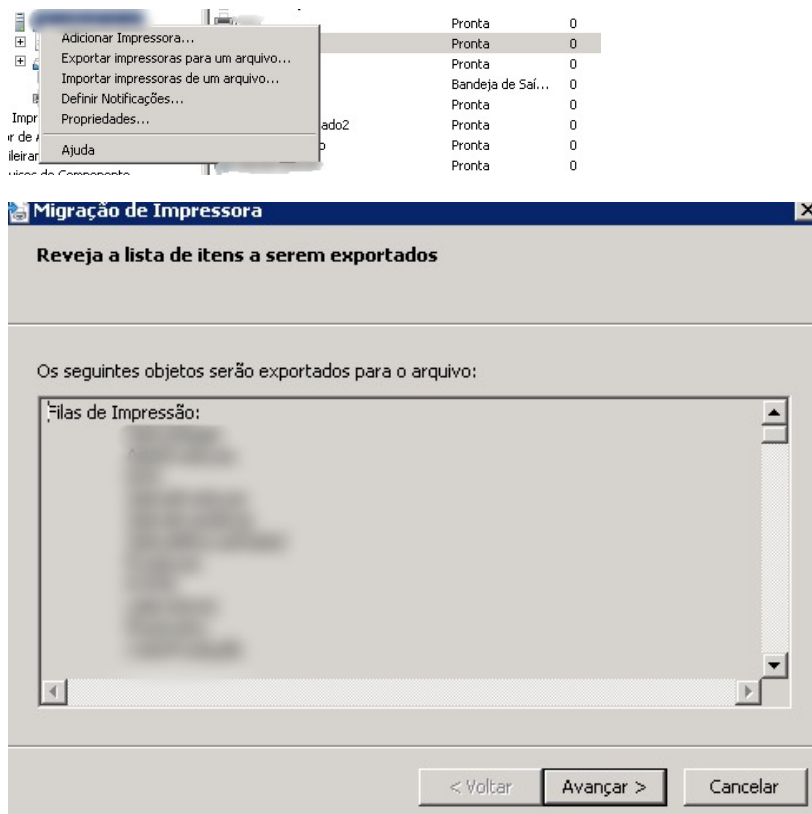

- FIRST LET'S INSTALL THE PRINT FUNCTION ON WINDOWS SERVER 2019

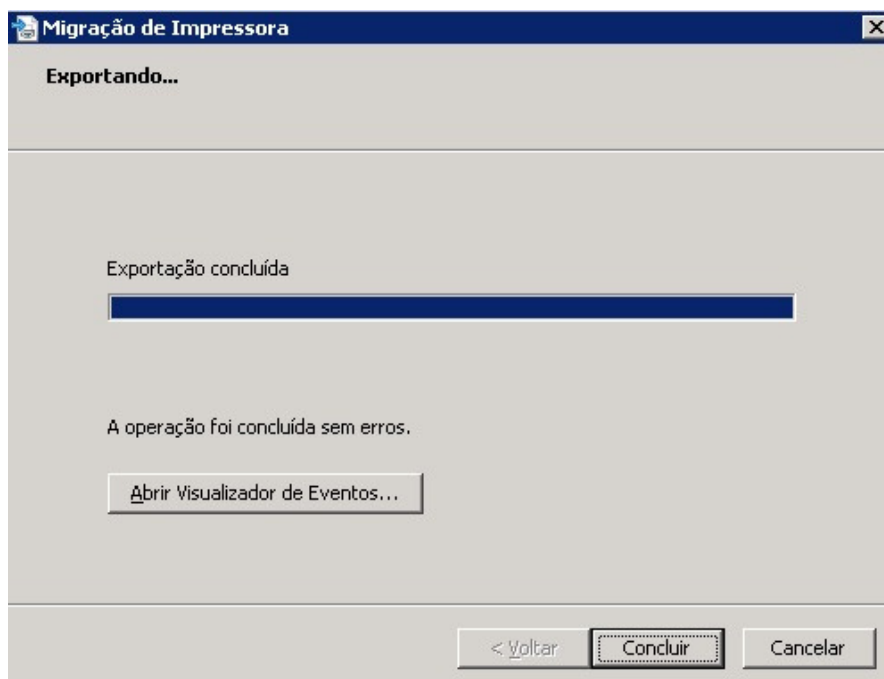

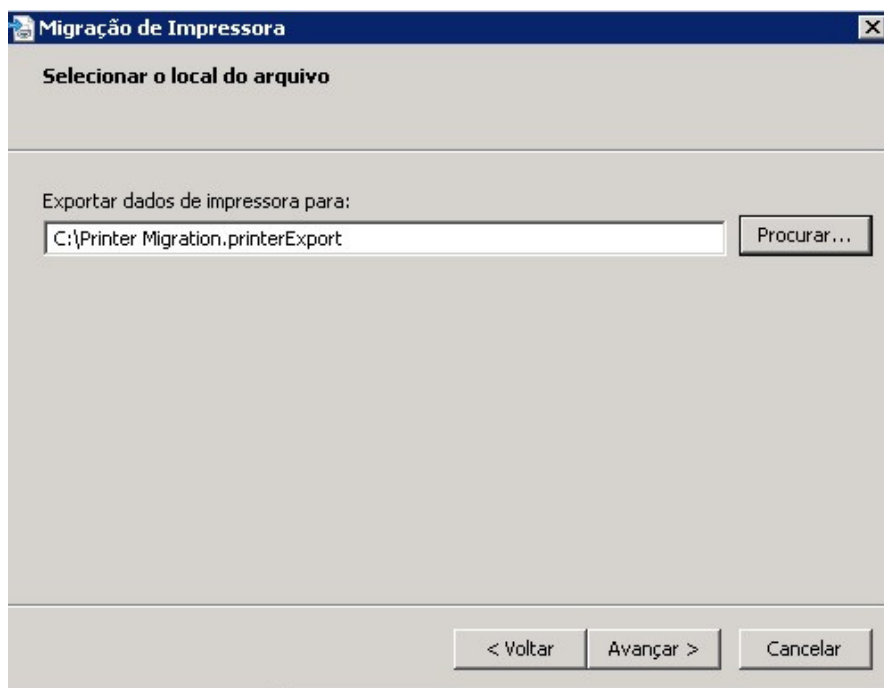

- WHILE THE ROLE IS INSTALLED, LET'S INSTALL PAPER CUT PRINT LOGGER. IT SERVES TO MONITOR USERS WHO PRINT ON THE SERVER.

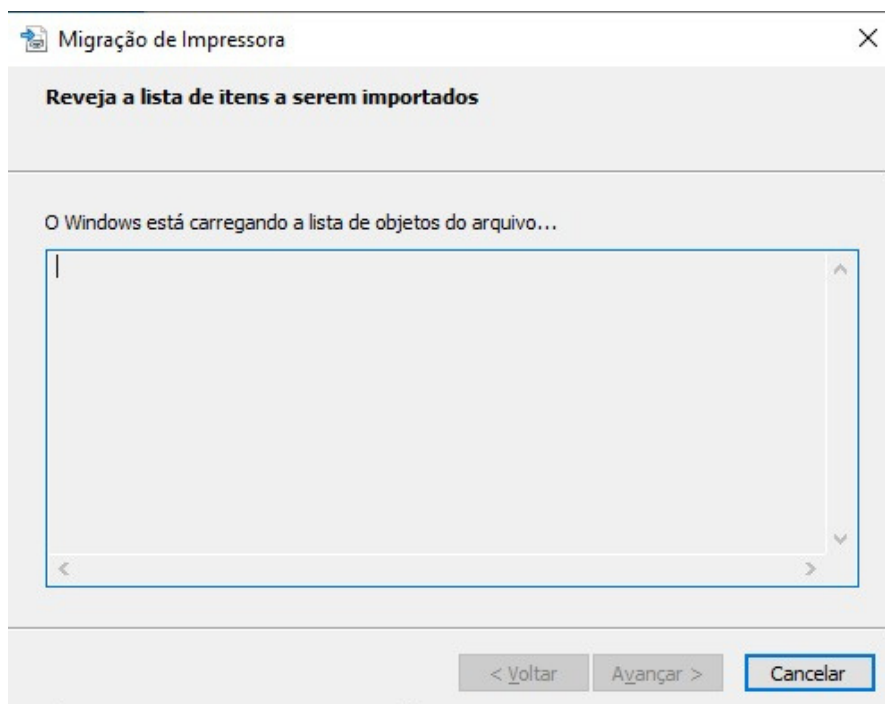

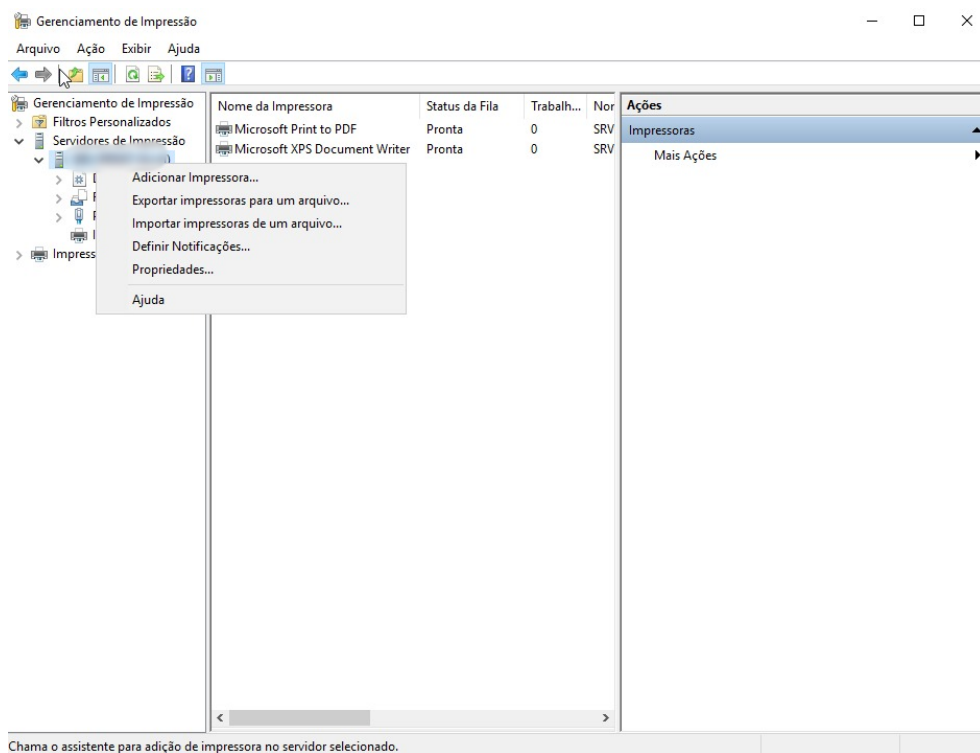

- INSTALLATION IS SIMPLE, JUST CLICK NEXT UNTIL THE END.
- NOW LET'S GO TO WINDOWS 2008. OPEN THE PRINT MANAGEMENT AND EXPORT THE PRINTER LIST.

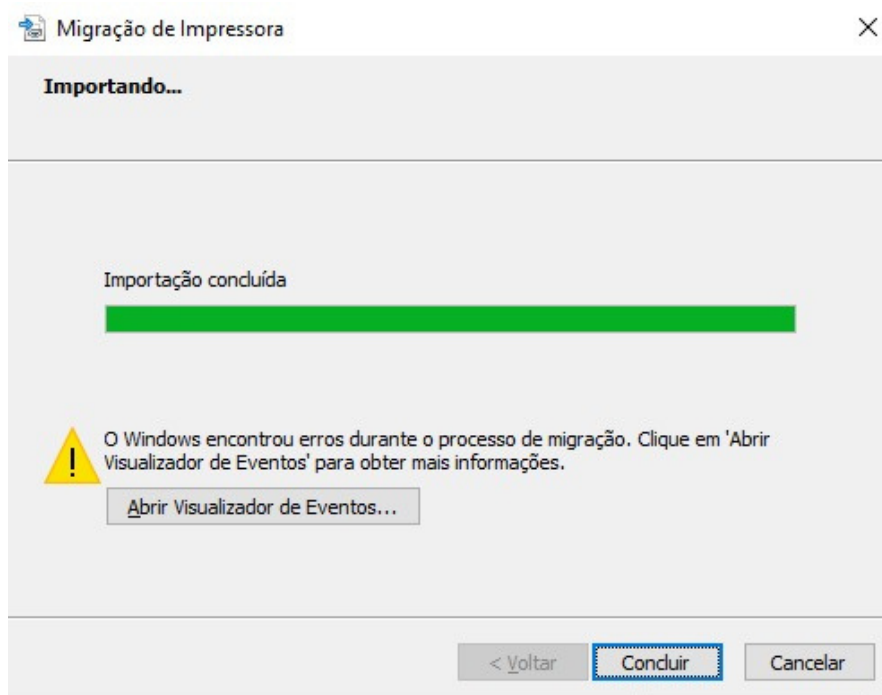

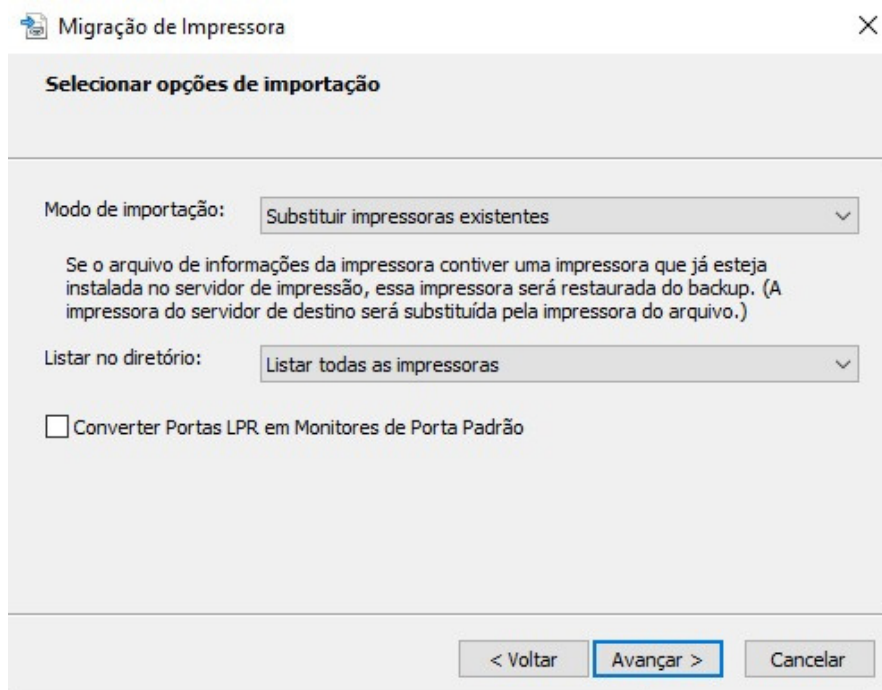

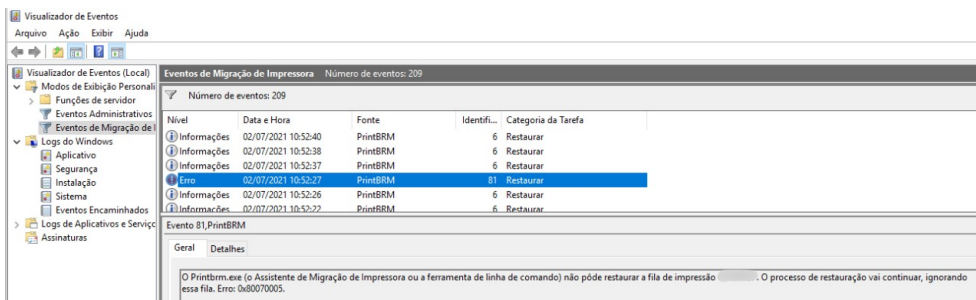

- ONCE COMPLETE, LET'S IMPORT THE MIGRATION LIST TO THE NEW SERVER.

- IN THE FOLLOWING SCREEN YOU CAN CHOOSE THE METHOD OF MIGRATION.
- IN THIS DOCUMENTATION WE ARE GOING TO USE "REPLACE ALL PRINTERS", BECAUSE IT IS A NEW SERVER.

- ON THE SCREEN ABOVE WE SAW AN ERROR, YOU CAN SEE IT IN THE EVENT VIEWER.

- THE ERROR IS A "PRINT QUEUE" HAS NOT BEEN MIGRATED.
- AFTER ANALYSIS I FOUND THAT A PRINTER WAS NOT MIGRATED.
- THE PRINTER WAS NOT MIGRATED AS IT WAS IN USE AT THE TIME OF EXPORT.
- I INSTALLED THIS PRINTER LATER.
